Quick Set Up

Step 1
1. Screw the mobile phone clamp onto the end of the iGadgitzBSS1 Bluetooth Selfie Stick, ensuring it is securely in place.

Step 2
2. Place the rubber holder on the top of the clamp using it for the first time, it is recommended to charge the battery approx. 10 seconds before then switching your phone's Bluetooth back on.

Step 3
3. Place the phone in the Mobile Phone Clamp. Adjust the clamp to ensure the phone is securely in place. The clamp can be adjusted for height and width of your phone.

Step 4
4. Open the camera application on your phone.

Step 5
5. Focus on yourself and press the 'Take picture' button.

Step 6
6. Finally open your camera app and press the shoot button on the shoot button begins a video and pressing again stops it.

Charging the Battery

1. Plug USB cable into a PC/Laptop USB port or suitable 5.0V USB power charger
2. The LED light flashes slowly when iGadgitzBSS1 is low in power.
3. Please recharge the battery as soon as possible.

Please Note: The battery is recyclable.

If becomes very hot during charging or emits smoke/vapour; switch off at the plug

If your Selfie Stick has not activated after an operating system update try
removing the Selfie Stick from your list of devices and pairing again.

If the Selfie Stick fails to activate after pairing, turn off your Selfie Stick and Bluetooth on your Phone. Then switch on the Selfie stick and wait approx. 10 seconds before then switching your phone's Bluetooth back on.

Should the Selfie Stick fail to activate after pairing, turn off your Selfie Stick and Bluetooth on your Phone. Then switch on the Selfie stick and wait approx. 10 seconds before then switching your phone's Bluetooth back on.

If your Selfie Stick fails to activate after pairing on your first use, try removing the Selfie Stick from your list of devices and pairing again.

If pairing fails, please turn off iGadgitzBSS1 first and then re-pair according to steps 1 above.

If your Selfie Stick fails to turn on try charging it (see 'Charging the Battery').

After pairing is successful, iGadgitzBSS1 and the Bluetooth device will remember each other and should not need to be re-paired next time. iGadgitzBSS1 can store 4 paired devices. When the number of paired devices exceeds this, the first one will be removed.

Pairing

1) Keep your Bluetooth enabled device within 1 metre when pairing;
2) Using your Bluetooth device, scan/search for available Bluetooth devices. Select Bluetooth Selfie Stick, ensuring it is securely in place and the pairing function is turned on;
3) Using your Bluetooth device, scan/search for available Bluetooth devices. Select Bluetooth Selfie Stick, ensuring it is securely in place and the pairing function is turned on;
4) Enter 'iGadgitzBSS1' in the pairing 'passkey'.
5) After successfully connecting, the Blue LED light will flash every 2 seconds.

Switching off

To switch off slide the power switch to the 'Off' position.
