Our versatile, stylish & powerful pedestal fan

360 ° PEDESTAL FAN INSTRUCTION MANUAL
Please read all of the instructions carefully and retain for future reference.

**Safety Instructions**

When using electrical products, basic safety precautions should always be followed.
Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the product to the mains power supply.
Children younger than 3 years old should be kept away from the product unless continuously supervised.
Children aged from 3 years and less than 8 years should not plug in, regulate or clean the product or perform user maintenance.
Children aged from 8 years and people with reduced physical, sensory or mental capabilities or lack of experience and knowledge can use this appliance, only if it has been placed in its intended operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
Children should not perform cleaning or user maintenance unless they are older than 8 years and supervised.
This is not a toy - children should be supervised to ensure they do not play with the product.
Always unplug the product and allow to cool fully after use and before any cleaning or maintenance. Normal voltage is still present in this product as long as the product is connected to the electrical source.
This product contains no user serviceable parts. If the power supply cord, plug or any part of the product is malfunctioning or if it has been dropped or damaged, only a qualified electrician should carry out repairs. Improper repairs may place the user at risk of harm.
Keep the product and its power supply cord out of the reach of children and away from heat or sharp edges that could cause damage. This includes any parts of the product that may become
hot during use and other heat emitting products.
Keep hands, fingers, hair and any loose clothing away from the
rotating parts of the product.
Do not immerse the product in water or any other liquid.
Do not operate the product with wet hands.
Do not leave the product unattended whilst connected to the
mains power supply or when in use.
Do not remove the product from the mains power supply by
pulling the cord; switch it off and remove the plug by hand.
Do not use this product for extended periods of time.
Do not leave the product plugged in or operating overnight.
Do not use the product for anything other than its intended use.
Do not use this product outdoors.
Do not move the product whilst it is in use.
Do not shake the product.
Do not cover the product.
Do not put objects into any of the openings.
Do not clean the product with abrasive chemicals or materials
such as scourers, as they may damage the product. This includes
insecticide and chemical solvents.
Only lift the product with the carry handles provided.
Always use the product on a flat, stable surface.
Use of an extension cord with the product is not recommended.
This product should not be operated by means of an external
timer or separate remote control system, other than that supplied
with this product.
This product is intended for domestic use only. It should not be
used for commercial purposes.
**Warning:** If a strong odour is emitted from the product, turn the
unit off and unplug it from the mains power supply.
Battery Safety (Remote Only)

Do not short-circuit a cell or battery.
Do not store cells and batteries haphazardly in a box or drawer where they may short-circuit each other or be short circuited by other metal objects.
Check that the battery compartment is secure.
Only batteries of the same or equivalent type as those recommended should be used with this product.
Batteries are to be inserted with the correct polarity.
Remove any batteries from the product when it is not being used for a long period of time to avoid leakage.
Exhausted batteries should be removed from the product to avoid leakage.
In the event of the batteries leaking, do not allow any liquid to come into contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.
Keep batteries out of the reach of children.
Remember to keep button cell batteries away from children at all times as they can easily be swallowed.
Seek medical advice immediately if a cell or battery has been swallowed.
The supply terminals are not to be short-circuited.
Exhausted batteries must be removed and disposed of safely.
Do not dispose of batteries in a fire.
Do not crush, puncture, dismantle or otherwise damage batteries.
Do not expose batteries to heat or fire as they may explode.
Do not subject batteries to mechanical shock.
Do not dispose of batteries in household waste.
To dispose of any batteries, take them to a local recycling station. Contact the local government offices for details.
This product requires 1 x CR2025 button cell battery (not included).
Care and Maintenance

Always wait until the pedestal fan has stopped completely and unplug it from the mains power supply before performing any cleaning or user maintenance.
Wipe the pedestal fan with a soft, damp, lint-free cloth and allow to dry thoroughly.
Do not immerse the pedestal fan in water or any other liquid.
Do not use abrasive cleaning solvents, polishes or scouring pads to clean the pedestal fan, as this may cause damage.

Getting Started

Remove the pedestal fan from the box.
Remove any packaging from the pedestal fan.
Place the packaging inside the box and either store or dispose of safely.

In the Box

360 ° Pedestal Fan
Front grill
Rear grill
Fan blade
Fan blade locking cap
Rear grill locking ring
Extendable base pole
Base feet (qty. 4)
Base feet screws (qty. 4)
Base screw cover
Remote control

Features

360 ° oscillation
55 W power
Separate up/down oscillation
LED light indicators
Mesh grill
Easy assembly
5 powerful PP blades
Strong arched steel base
Description of Parts

1. 360 ° Pedestal Fan main unit
2. Front grill
3. Rear grill
4. Rear grill locking ring
5. Motor assembly
6. Motor assembly shaft
7. Fan blade
8. Fan blade locking cap
9. Front grill locking catch and fixing screw
10. Base feet (qty. 4)
11. Base screw cover
12. Base feet screws (qty. 4)
13. Height adjustment cap
14. Extendable base pole
15. Control panel
16. Vertical oscillation switch
17. Stand screw

Remote Control

18. Power button
19. Fan button
20. Oscillation button
21. Mode button
22. Timer button
Assembling the 360° Pedestal Fan

Assembling the Fan Head

**STEP 1:** Lay the motor assembly on a flat surface so that the motor assembly shaft is facing upwards.
**STEP 2:** Remove the rear grill locking ring by rotating in an anticlockwise direction.
**STEP 3:** Position the rear grill onto the front of the motor assembly so that the handle is facing upwards. Fit the locators into the holes on the rear grill to secure.
**STEP 4:** Add the rear grill locking ring and rotate in a clockwise direction to secure the rear grill to the motor assembly. Make sure that the rear grill is fitted tightly and sitting flat on the motor assembly.
**STEP 5:** Place the fan blade onto the motor assembly shaft and align the keyway with the slot on the fan blade.
**STEP 6:** Add the fan blade locking cap to the motor assembly shaft. Hold onto the fan blade and rotate the fan blade locking cap in an anticlockwise direction until it is tight.
**STEP 7:** Mount the front grill by aligning the unlock symbol with the corresponding line. Pull out the front grill locking catch and hold it in place while rotating the grill in a clockwise direction to secure it. Release the front grill locking catch and secure with the fixing screw to prevent unlocking.

Assembling the Fan Base

**STEP 1:** Fit the four base feet into the base screw cover and align the holes on the base feet with the holes on the base screw cover. Secure using the base feet screws and make sure not to overtighten.
**STEP 2:** Unscrew the height adjustment cap by rotating in an anticlockwise direction. Pull out the extender from inside the extendable base pole. The extendable base pole may need to be turned upside down to allow the extender to drop out.
**STEP 3:** Secure the height adjustment cap by rotating in a clockwise direction. This will prevent the extender from falling back inside the extendable base pole.

Attaching the Fan Base to the Fan Head

**STEP 1:** Loosen the stand screw on the fan head by rotating in an anticlockwise direction.
**STEP 2:** Slot the fan head onto the fan base.
**STEP 3:** Tighten the stand screw by rotating in a clockwise direction.

**Note:** Do not overtighten the stand screw as this may cause damage.
Instructions for Use

Before connecting to the mains power supply, place the assembled pedestal fan onto a flat, stable surface, allowing for sufficient distance between the pedestal fan and any objects that could get damaged or caught in the rotating fan blades.

**Caution:** Do not cover the fan head.
This is not a desk fan. Do not place the pedestal fan on a desk, as this could affect its stability.
Take care not to overtighten the adjustable height cap.

To switch on the pedestal fan, press the power button (⃒) followed by the fan button (➕). This will initiate the lowest speed setting and the low speed indicator light will illuminate.
Press the fan button(➕) again to cycle through the speed settings; the corresponding fan speed indicator light will illuminate to signal the selected speed setting.

**Oscillation Functions**

To initiate the 360 ° horizontal oscillation function, press the oscillation button (⃒). The oscillation indicator light will illuminate and the pedestal fan will begin to rotate 360 ° in one direction. To switch off the horizontal oscillation function, press the oscillation button (⃒) again.
To initiate the 30 ° vertical oscillation function, push in the vertical oscillation switch on the right side of the motor housing. The pedestal fan will oscillate 30 ° up and down. To switch off the vertical oscillation function, pull out the vertical oscillation switch.

**Note:** If both the horizontal oscillation function and the vertical oscillation function are active, the pedestal fan will rotate 360 ° in a figure of eight.

**Fan Modes**

There are three fan modes:

**Normal mode:** This is the default fan mode. When Normal mode is selected the fan runs continuously at the selected speed setting. Natural and Sleep mode can be accessed from Normal mode by pressing the mode (��) button to cycle through the fan modes.

**Natural mode:** When Natural mode is selected an indicator light will display next to the (ClassNotFoundException) symbol on the control panel. The fan automatically varies the wind speed to replicate natural wind. The average wind speed can be changed by pressing the fan button (➕); selecting the highest speed setting selects the highest average wind speed.

**Sleep mode:** When Sleep mode is selected an indicator light will display next to the (енная) symbol on the control panel. The fan automatically varies the wind speed to replicate natural wind and the average wind speed decreases by one level every 30
minutes until the lowest speed setting is reached. The fan then continues to run at the lowest speed setting until the fan is manually switched off.

**Using the Timer**

To use the timer function, press the timer button (징) and cycle through the timer settings. The timer can be set to switch off the pedestal fan automatically after a min. of 30 minutes and a max. of 7 hours and 30 minutes. Once the timer counts down to zero, the pedestal fan will automatically switch off.

**Specifications**

Product code: EH1331
Input: 220-240 V ~ 50 Hz
Power: 55 W
Connection to the mains

Please check that the voltage indicated on the product corresponds with your supply voltage.

Important

As the colours in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, please proceed as follows:

The wires in the mains lead are coloured in accordance with the following code:

Blue Neutral (N)
Brown Live (L)

FOR UK USE ONLY - Plug fitting details (where applicable).

The wire coloured BLUE is the NEUTRAL and must be connected to the terminal marked N or coloured BLACK.
The wire coloured BROWN is the LIVE wire and must be connected to the terminal marked L or coloured RED.
On no account must either the BROWN or the BLUE wire be connected to the EARTH terminal (↓).
Always ensure that the cord grip is fastened correctly.
The plug must be fitted with a fuse of the same rating already fitted and conforming to BS 1362 and be ASTA approved.
If in doubt consult a qualified electrician who will be pleased to do this for you.

Non-rewireable mains plug

If your appliance is supplied with a non-rewireable plug fitted to the mains lead and should the fuse need replacing, you must use an ASTA approved one (conforming to BS 1362 of the same rating).
If in doubt, consult a qualified electrician who will be pleased to do this for you.
If you need to remove the plug - DISCONNECT IT FROM THE MAINS and then cut it off the mains lead and immediately dispose of it safely. Never attempt to reuse the plug or insert it into a socket outlet as there is a danger of an electric shock.

If this product does not reach you in an acceptable condition, please contact our Customer Services Department at www.beldray.com

Please have your delivery note to hand as details from it will be required.

If you wish to return this product, please return it to the retailer from where it was purchased with your receipt (subject to their terms and conditions).

Guarantee

All products purchased as new carry a manufacturer’s guarantee; the time period of the guarantee will vary dependent upon the product. Where reasonable proof of purchase can be provided, Beldray will provide a standard 12 month guarantee with the retailer from the date of purchase. This is only applicable when products have been used as instructed for their intended, domestic use. Any misuse or dismantling of products will invalidate any guarantee.

Under the guarantee, we undertake to repair or replace free of any charge any parts found to be defective. In the event that we cannot provide an exact replacement, a similar product will be offered or the cost refunded. Any damages from daily wear and tear are not covered by this guarantee, nor are consumables such as plugs, fuses etc.

Please note that the above terms and conditions may be updated from time to time and we therefore recommend that you check these each time you revisit the website.

Nothing in this guarantee or in the instructions relating to this product excludes, restricts or otherwise affects your statutory rights.

The crossed out wheelie bin symbol on this item indicates that this appliance needs to be disposed of in an environmentally friendly way when it becomes of no further use or has worn out. Contact your local authority for details of where to take the item for recycling.
*To be eligible for the extended guarantee, go to www.beldray.com and register your product within 30 days of purchase.
